Computer Science 3 – Web Development
Formative Assessment 1 – Pisayantist Profile

Instructions:

1. Create a profile-like webpage which contains the information shown in the attached sample page. Put all your web page files and images in one project folder.
2. Use the appropriate HTML tags to achieve the look of the sample page (e.g. any of the <h1> to <h6> tags for headings, <a> tags for links to soc med profiles, etc.). You do not need to copy the exact sizes of the images and text in the sample page but your page should contain the elements in the sample page (e.g. heading tags, and not styled p tags, should be used for headings, etc.).

   Hints:
   a. You can change the size of your image using the width attribute (e.g. <img src="img_path_here.jpg" <u>width="200px"</u>>).
   b. When writing the image src, do not copy the full path in the Windows Explorer window (e.g. "C:\Users\Google Drive\Pisay\Fave Subj\FA 1") as you would copy an online URL. If your image is in the same folder as your webpage, use only the full filename of the image as your src value.
   c. You can add HTML tags inside other HTML tags (e.g. list or hyperlink tags inside table cell tags).

3. Use the attached PSHS logo as your img file for your page. Save it in the same folder as your HTML file. Do the same for your profile picture – save a copy of it in the same folder as your HTML file.
4. There is no need to style your webpage. While the table in the sample webpage has black borders, you do not have to have visible borders in your webpage yet as that requires CSS.
5. **Submit your webpage to the khub within the double-period. Late submissions will be deducted 1 point per day.**
6. To submit, zip your project folder and upload your zip file in the assignment submission link. Please make sure your folder only contains files related to this FA. You can try emailing your zip folder to your classmate and having them unzip your file and check if your webpage works as expected on their computer.
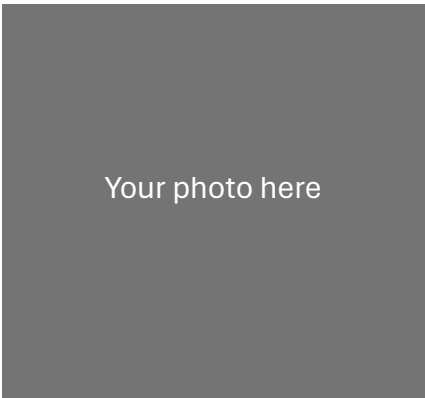

Rubric:

	3	2	1
Completeness of HTML skeleton	All required (skeleton) HTML tags are present and complete (with opening and closing tags where applicable)	Up to 2 required HTML tags are missing or miswritten	3 or more tags are missing or miswritten
Appropriateness of tag use	Appropriate tags are used for adding the elements indicated in the sample page	Up to 2 tags are missing or miswritten	3 or more tags are missing or miswritten
Completeness of information	All information required, as shown in the sample page, is present	1 row or cell is missing	2 or more rows/cells are missing

Total: 9 points

Pisayantist Profile Page

Your photo here

Name	Karen Rachel J. San Pablo
Pisay Admission Year	20xx
Sections	Pearl, Rosal, Lithium
Advisers	Ms. Jovie Maquilas, Ms. Delia Legaspino, Mr. Jonathan Mancao
Interests	- Walking - Hiking - Coffee crawling
Field of Research Interest	Computer Science, Education (Write the subject area where you feel like doing a research in.)
Career Goal	(Write your target college course or job here.)
Social Media	Facebook, X, Instagram (Please make sure the links here lead to the correct site. If you are not comfortable linking your own profiles, you can link an artist/shop/ company's soc med profiles here instead.)
